## Mapping Manitoba's Economy in 2018

Mapping Manitoba is the Young Associates premier event. It is a breakfast event featuring a panel made up of distinguished leaders of the Province. This year will mark the 19th edition of Mapping Manitoba and it will focus on the Manitoba Provincial Budget and how it will affect our province's economy and businesses over the coming year. With an engaged audience of emerging business leaders, and an influential and knowledgeable panel, it promises to be yet another successful event. A hot breakfast buffet is provided for guests along with considerable time for networking and discussion on the budget.
